

# CLEAN & BRIGHT

*Bathroom inspiration from award-winning Iggi Interior Design*

**N**ever underestimate the humble bathroom; now widely recognised as the architectural space in which we (and our guests) replenish, cultivate and relax our bodies and souls.

Whether it's a fabulous "Guest Powder Room" or a personal spa retreat within a master bedroom suite, the bathroom in your home is the ultimate space for private reflection and deserves inspired design.

## FEATURE WALL

► There is a fabulous choice of feature wall tiles on the market, to match all budgets, from slithers of Thassos Marble

and Faux Onyx to Lucite chips. Be bold and create a breathtaking tactile and visual statement and contrast that with pared back and simple décor.

## STORAGE

► You can't have enough storage in a bathroom or cloakroom, so your spare loo rolls don't have to be kept on display. Incorporate niches in the shower and by the bath for the products you need within easy reach. Vanity units and recessed wall cabinets give ample space to hide everyday items leaving uncluttered surfaces for one or two beautiful items.

## LIGHTING

► Ambient lighting is as important as task lighting in a bathroom so always

●● *The bathroom is the ULTIMATE SPACE FOR private reflection & DESERVES inspired design* ●●

install a dimmer switch. This will help to create the mood for a relaxing soak or to give off a brighter light for makeup application.

## BATH SELECTION

► Sit in your bath before you make the final purchase and make sure it meets your personal requirements. You need enough room to stretch out but not too much so you can't get a foothold when lying back. Baths with angled backs provide comfort and neck support. Choose a double ended bath with taps in the middle for bathing à deux!

## UNDER FLOOR HEATING

► Under-floor heating will make ceramic, stone and marble tiles toasty warm. Well worth the investment.

## TOWELS

► Think about where you are going to store your towels. You need them at hand near the shower or bath – plan for this in advance. ♦
